

## Richcraft Homes - Outstanding Corporate Philanthropist

Founded in 1983 by Kris Singhal, Richcraft Homes has had the privilege of building over 16,000 homes for Ottawa families. The company is soon reaching their 40<sup>th</sup> anniversary, with a devoted team of 200+ professionals passionate about design, innovation, and community.

Richcraft's priority has always been quality, with the purpose of delivering superior craftsmanship, products, services, and customer satisfaction that surpasses all expectations. A leader in their industry, they remain committed to excellence in each and every aspect of building their clients' dream homes and communities where they can flourish.

As a family-owned business, Richcraft is dedicated to giving back. They take pride in their community involvement, and it is one of the company's core values. With past partnerships including CHEO, the Ottawa Hospital, Hospice Care Ottawa, Habitat for Humanity, Shepherds of Good Hope, BGC Ottawa, Shenkman Arts Centre, Ottawa Senators Foundation, Carleton University, Algonquin College, and more, Richcraft has continuously strived to make impactful contributions to our society. These contributions resulted in new hospital waiting areas, medical machines, care centres, educational learning centres, supportive housing, recreation complexes, a Sensplex, and a new community theatre.

Richcraft and the Singhal family have made history with their philanthropy. Recently, they gave the largest single donation to Shepherds of Good Hope that the non-profit has ever received. This is just one of their many significant contributions to the Ottawa community, and they are honoured to have supported these charitable initiatives. In the future, Richcraft is looking forward to many more opportunities to give back.
